ADDRESSES TO WORKING MEN

Senator Dillingham Warmly Applauded Following Speeches at White River Chair and Estey Organ Factories.

Senator William P. Dillingham of Waterbury has made several speeches in Windham county this week. On Monday evening he spoke in Jamaica, Tuesday noon at the White River Chair company's noon at the White River Chair company's shop on Vernon street, Tuesday evening in Townshend, Wednesday noon at the Estey Organ company's plant and Wednesday evening in Westminster.

At the two noon meetings here he addressed over 300 working men and made a very favorable impression with his arguments for the re-election of President Taft. He devoted himself mainly to ham.

Taft. He devoted himself mainly to hamnering the low tariff policies of the Dem-

mering the low tariff policies of the Democratic party.

At the White River Chair company's factory after a bugle call by H. A. Wood, the employes gathered in front of the shop. C. C. Fitts introduced Senator Dillingham, who spoke about 30 minutes, outlining the tariff policies of the Republican party since 1860. He said the Democratic party originally was strong in the South and was founded by those who favored slavery. Gradually a change has come about, and its goal now is free trade or a low tariff, which is diametrically opposed to the Republican idea of protection for American made goods and the workers of the country.

the workers of the country.

He said the Payne-Aldrich tariff bill was framed upon a scientific basis, that the tariff on necessities had been lowered while the tax on luxuries had been made heavier. One of the Democratic tariff bills passed during President Taft's adminis-tration was vetoed by the President because he thought it was not square with the laboring men. In closing, Senator Dillingham said the Democrats intended to take off the tariff on at least two-thirds of imported products, which would result in a business depression equal to that experienced during President Cleve-land's administration.

The talk to the employes of the Estey Organ company was along the same lines, but some of his points were brought out more forcefully. He said that the Wilson tariff law was similar to what would be introduced by the Democrats if they won this year and that the results would be the same as under that law, when 80 per cent of the woolen mills in New England were closed and millions of yards of foreign-made woolens were brought here to detriment of home indus-tries. In Vermont there are 129 different manufacturing interests and a free trade administration would take off protection from 86 of them. Industries such as the woolen and carding mills in North Ben-nington would suffer and the cotton in-dustry, which is represented here, would be affected. He read a very complimen-tary culogy in which Theodore Roosevelt spoke in high terms of President Taft's stitlude toward labor. At the close of attitude toward labor. At the close of Senator Dillingham's speech he was warmly applauded.

Few men living or dead have done more humanity and for Vermont during the past thirty years than Dr. H. D. Hol ton of Brattleboro, who has recently re-signed as secretary of the state board of health.

He sold that place and worked in various places until two years ago, when he bought the house in this place opposite C. H. Kennon's, known to the older residents as the Felt house, where he lived alone. He took much in-terest in repairing the house and improving the appearance of the place. Being fond of flowers he had a large variety of them, also strawberries and a few vegetables on the little plot of land about the house. He worked during last spring for I. J.

Dutton on what formerly was the H. M. Kidder place. He came home about the middle of June saying he did not feel well. Later, June 20 or 21, he went away, and it was believed he had gone to Massachusetts to stay a few days. Time went on and people wondered at his prolonged absence. A few weeks ago D. C. Dexter wrote letters to South Ash-burnham in care of Mr. Robinson's son and to Amherst, where his brother and sister to live. In this way it was learned that his relatives supposed he was at at home and was all right. rawford Ranges

One very remarkable fact in connection with Crawford Ranges is that nobody ever willingly changes from a Crawford to a range of any other make.

There must be a reason - we believe there are several. The Single Damper (patented,) the scientific Cup-Joint Oven Flues that heat the oven in every part alike; the Ash Hod (patented,) instead of the clumsy ash pan; these are some of the Crawford time and trouble savers.

If you will carefully examine and compare the Crawford with any or all other cooking

ranges you will see why Crawfords do better work, with more comfort for the cook and less waste of time and money. Send for the illustra-
